Your Partner for Custom Industrial Automation and
Functional Safety Solutions

#togetherWOW

OUR SERVICES - YOUR CHOICE

Automation, Embedded Development, and Beyond.

ABOUT US

SALZ Automation is a leading provider of industrial automation and safety solutions, operating in the manufacturing and wholesale sectors. With a strong presence in Germany, the USA, and China, the company specializes in delivering cutting-edge hardware, software, and engineering solutions for industrial automation and functional safety.

 <p>Products & Software Solutions High-performance hardware and software, including our flagship SALZ Control System.</p>	 <p>Engineering Solutions From design, cabinet building, and programming to electrical and automation engineering.</p>
 <p>Embedded Development Expertise in embedded systems for continuous development, support, and cutting-edge solutions.</p>	 <p>Functional Safety Integration of industry-leading functional safety standards into our products and solutions.</p>

Through a collaborative approach and strategic partnerships, we provide tailor-made, high-quality solutions that enhance automation efficiency and safety. Our commitment to innovation, expertise, and customer satisfaction ensures that we meet the evolving demands of modern industry.

OUR VALUES

- ✓ Pursuing **flexible solutions** with high investment security.
- ✓ Achieving more through cooperation based on **partnership**.
- ✓ We are working according to German **quality** standards.

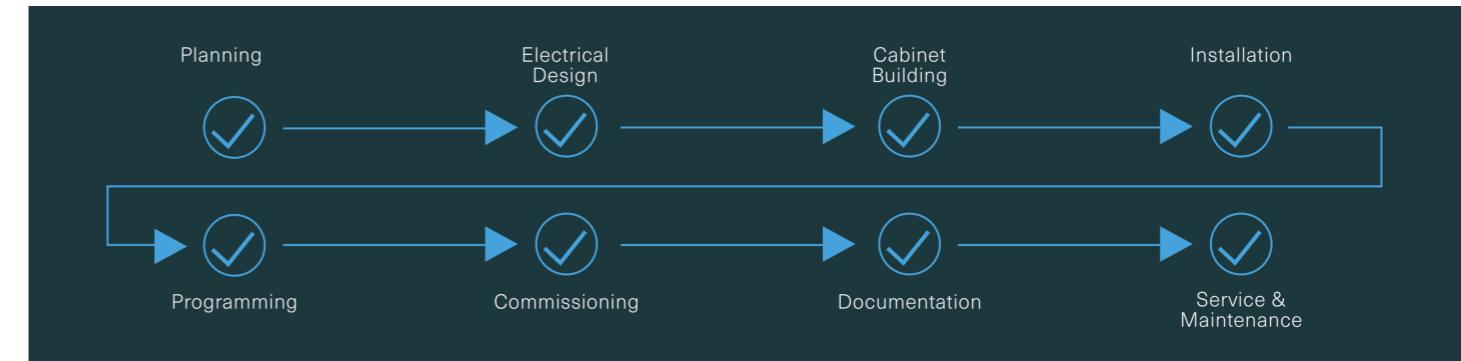

TEAM OF SALZ AUTOMATION

We are a young, dynamic company with flat hierarchies, enabling fast decisions and market entry. Founded by industry experts with over 40 years of automation experience, SALZ Automation strives for a revolutionary, flexible, and safe automation system. Our expert team delivers tailored solutions, guided by our #togetherWOW philosophy — fostering collaboration, knowledge sharing, and exceptional results.

In a world driven by digital transformation, SALZ Automation bridges the gap between Information Technology (IT) and Operational Technology (OT). Our mission is to create a seamless, efficient automation ecosystem. We provide **tailored solutions** — designing, programming, and implementing automation systems from hardware to software, for projects of any scale.

You define the scope, we deliver the solution.

PRODUCTS FROM SALZ AUTOMATION

Our product portfolio includes hardware and software for industrial automation solutions, i.e.:

- Industrial Control System
- EtherCAT I/O Modules
- Functional Safety Modules
- Edge Devices
- IoT Gateways
- Industrial Ethernet Switches
- Industrial Power Supplies
- Industrial Panel PCs
- Industrial Relays

The growing portfolio complies with the required norms and standards for worldwide use in various engineering applications.
