

SSR OCR-D32-A480-90A-ZL

Series-B Solid State Relay 90A, 4 ... 32 VDC Input Voltage, 24 ... 480 VAC Output Load Voltage

DIN-rail single-phase series-B solid state relay, DC input voltage 4 ... 32V, AC load 24 ... 480V, load current 90A.

The SSR OCR-D32-A480-90A-ZL is a high-performance, zero-crossing solid state relay designed for reliable AC switching in demanding industrial environments. Utilizing semiconductor technology instead of mechanical contacts, this relay features optical isolation between input and output for enhanced safety and signal integrity. When a control voltage of 4–32 VDC is applied, the relay switches loads up to 90A within a wide output voltage range of 24–480 VAC. Key features include zero-voltage switching, which minimizes electrical noise and inrush currents, making it ideal for sensitive resistive, inductive, and capacitive loads. The device also offers LED input indication for clear status monitoring, built-in TVS surge protection for enhanced durability, and reinforced insulation between the housing (including the base plate) and high-voltage circuitry for maximum operational safety. Widely used in electric furnace heating, thermostat systems, CNC machinery, plastics, food, packaging, textile machinery, petrochemical instrumentation, and other automation control fields, the SSR OCR-D32-A480-90A-ZL delivers robust, maintenance-free switching for a broad range of industrial applications.

ORDER DETAILS

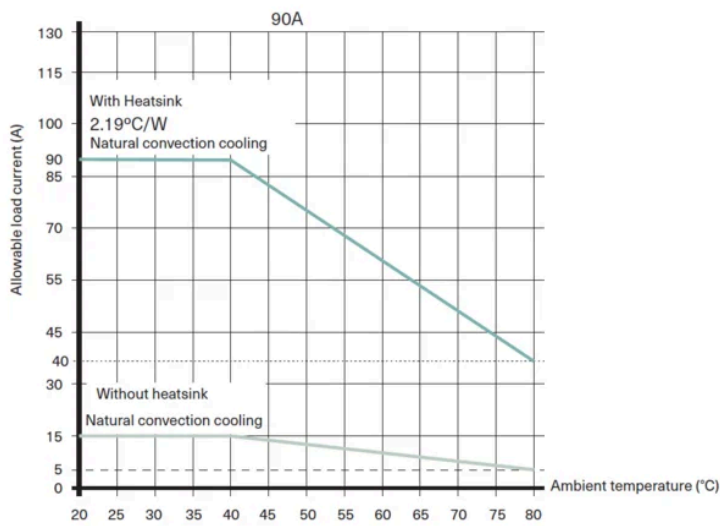

Function: Zero-voltage AC switching, optical input-output isolation, LED status indication, built-in TVS surge protection, reinforced insulation for safety, reliable switching for various industrial application
SKU/Order No.: SA-SSRB-D032A480-90

Technical Data

Input Data

Input Current (typ.)	12mA (max.)
Input Voltage Range DC	4 ... 32 VDC
Must Operate Voltage	≥ 2.5 VDC
Must Release Voltage	≤ 2 VDC
Zero Voltage Current	1 ... 15A (without heat sink)
Surge Current	900A (1/2 cycle)

Output Data

Output Voltage Range	24 ... 480 VAC
Output Current	1 ... 90A (with heat sink)
Rated Impulse Withstand Voltage	6kV

Contact Data

Max. switching current	90A
